Licenses

A License for One Application is the license for one application development.

It is valid only for applications which are owned by licensee itself.

The Free Upgrade for Perpetual License is valid between version X.Y.Z and version X+1.Y.Z.

(eg. If you buy license at version 8.1.0, you can freely update the SDK till 9.1.0)

Negotiation

All Prices are negotiable according to your business model and company state.
Up to business model, Revenue Sharing is possible instead of Payment.
